

Teach - Meet with Language Teams

Reflections

Teach and meet PD it was not just about listening to presentations, but it was about sharing and collaborating among language educators.

Some of the most impactful sessions focused on incorporating technology into the classroom and behaviour managements. the presenters shared some innovative strategies for using digital technology tool to enhance the students engagement.

It was very good PD where many presenters shared many resources and strategies for teaching languages.

I left the session feeling energised and equipped with many ideas that I can implement in my own classroom.

The PD also left me feeling refreshed, motivated and ready to embrace new challenges in the classroom.

I am eager to put the knowlledge and inspiration gained at the Teach and Meet into practice and continue to grow as a language educator.

Cheers

Pak Sahar
